

## Report from Addington Green Management Company

Residents have continued to save funds this year towards the resurfacing of the track around the village Green. £15,000 has now been accrued. Quotes have been obtained for the work and Arnold Tarmac are scheduled to complete the works 17th April 2023. Work is anticipated to take 3-4 days and 40mm Tarmac will be used for the surface. The Parish Council have had full visibility of the arrangements including the Risk Assessment and Methods Statement.

The Residents held a social event in September 2022 on the Green which was well attended and have plans to now make this an annual event if possible. Prior approval will be obtained from the Parish Council before each event.

Many thanks

Liz and Phil
